The profit during the year 2010-11 is Rs.1883.30 Lacs as compared to Rs. 1310.93 Lacs during last year 2009-2010.

4. WIND POWER PROJECT

The Company has so far installed 4.75 MW capacity wind power projects comprising of 1.125 MW capacity in Tiruppur District of Tamilnadu, 1.125 MW capacity in Gadag District of Karnataka and 2.50 MW capacity in Satara District of Maharashtra.

The wind power projects by themselves are not commercially viable since their operation depends on availability of winds which is a function of nature and many times erratic. During last three years, generation has been less than estimated. At the same time, wind power generation is one of the cleanest forms of power generation as it does not involve use of fossil fuels which leads to emission of large quantities of toxic gases into the atmosphere leading to climate change. In fact recognizing this immense advantage of wind and similar forms of power generation like solar power, power utilities are mandated to buy certain percentage of power needs from the agencies installing such plants by Central Electricity Regulatory Authority, Govt. of India. To make such projects economically viable for investors, carbon credit benefit is also extended under Kyoto Protocol of UNFCCC (United Nations Framework Conference on Climate Change).

Company has applied for such Carbon Credit benefit for 4.75 MW bundled Power Project (1.125 MW in Tamilnadu, 1.125 MW in Karnataka and 2.50 MW in Maharashtra). The proposal has been granted "Host Country Approval" by the Ministry of Environment & Forests, Government of India. The Proposal has been submitted to the Executive Board of UNFCCC at Bonn, Germany for their registration after recommendation by the validators.

The Company has appointed an international consultant M/s SGS India Pvt. Ltd., to validate the project and submit their recommendations to the UN Executive Board at Bonn. The registration of the project by UNFCCC is expected in the first half of 2011-12.
